

Hello, My Names Nick Gladwin. I am a Sound Recordist and Boom Operator with experience working in the areas of HETV drama, Features, Documentaries and Commercial.

Before transitioning into TV and Film I worked as a Live Sound engineer for 10 years. Working around the UK and traveling around the world with Royal Caribbean International as one of their head technicians.

This has given me great life experiences and really shaped me as a positive person. This is the attitude i bring with to me on set and which i hope shines through my work,

Please see below a list of my Recording credits
